EXPERIENCE

Graphic Design (CTE) Teacher - Garland ISD

August 2013 - present

Garland, TX 75040

Graphic Design instructor in the Career and Technology department. Consistently lead PLC meetings for all Graphic Design teachers in GISD. In addition to teaching graphic design I was put in charge of teaching and coordination of all Principle of Comm/Arts/AV (prerequisite to all design related classes).

- PLC Leader for all graphic design teachers in GISD.
- Pioneered transition to Google Hangouts for PLC meetings to eliminate in-person travel time.
- Digital Instruction Coach (3 years). Provided support to help teachers transition to utilizing digital tools in instruction.
- Classroom teacher (9 years). Created curriculum for Graphic Design (3 levels), Principles of Design (Prerequisite to all design classes), Principles of Construction, Information Technology, Energy/Power/Transportation. In addition to all regular classroom duties.
- Was a part of the campus improvement team (2 years).
- Co-sponsor for DECA (business training student organization), TSA (technology student association), and GHYO (young men mentorship program)
- Presenter at GISD Icon - 3 years (district lead digital professional development training).

Indigo River Tiny Homes

June 2019 - present

Garland, TX 75040

I work part-time managing the website. I also create and edit any multi-media products.

- Redesigned original website
- Webmaster
- Created a digital form for potential customers to fill instead of paper based form
- Edit all raw digital videos to be posted.
- Manage analytics and make recommendations.

Rutledge Wood Products

July 2012 - May 2013

Denton, TX 76209

Draftsman for all cabinet millwork and all custom woodwork at franchise restaurant chains. (e (Red Lobster, Twin Peaks, Chili's, TGIFriday's, etc.)

- Responsible for all in-house print production and technician for the large format printer.
- In charge of creating all section and CAD drawings for all mill-work and custom installations.
- Created all millwork drawings for custom bars at every located Rutledge worked on.

- Solved design problems for custom millwork (mostly hostess stands with logo installed)
- Working with co-workers in the shop to troubleshoot design issues.
- Learning all design standard design for consistent clients to produce timely construction documents.

Student Teacher at Abilene ISD

August 2011 - June 2012

Abilene, TX 79601

After finishing my Alter-Certification in Sp. Ed. (EC-12) and General (EC-6), I was first placed in a high functioning Special Ed. (PALS) fifth grade class for 6 months. The students I worked with were a little behind on level classes and needed some additional one-on-one time or in small groups.

Bonham Elementary

August 2010 - June 2011

Abilene, TX 79601

At Bonham Elementary I was a Special Education aide in a Life-Skills classroom. I worked one-on-one with the 5 students (2nd to 5th grade) one a day each week. This class was designed to help them develop life skills such as being potty trained or learning to communicate because they were non-verbal.

Substitute Teacher at Abilene ISD

September 2009 - June 2010

Abilene, TX 79601

During this time I was transitioning from an intern architect to education. I was working full time as a substitute teacher working all grades (EC-12), any subject, even special education classes. It was during this time, while substitute teaching for a friend of mine, that she encouraged me to get my alternative certification.

Weatherl and Associates

January 2008 - September 2009

Abilene, TX 79601

I was an intern architect for Mr. Rick Weatherl. I helped in all phases of design work (schematic design, design development, and construction documents). I created usage studies of different businesses to plan out how much building addition and where it was needed. I shadowed Mr. Weatherl in all client meetings. Mr. Weatherl specialized in historical restoration. While working here I discovered a passion for everything "vintage" and "restoration".

- All in house large and small format printing.
- Extensive Schematic Design and Design Development work
- 2d Presentation work in using elevations and site plans
- Preparation of Construction Documents for many building types (edu., hist. restoration, residential)
- Put together many design booklets for a local university to reference all the design buildings and campus planning we did for them.
- Edit Specification Documents
- Extensive preliminary Design Work

Lbl Architects

March 2006 - December 2007

Arlington, TX 76012

During my time at Lbl Architects I was in charge of creating all millwork and detail section drawings. I worked as the main person in charge of all large and small format printing and supplies. I handled various different high output small and large format printers that used CMYK toner and black and white toner for all in house printing. I also handled all large format scanning of construction documents for work on remodel and restoration work. I was also put in charge of setup and installation of all computer hardware.

- Millwork Plan and Section drawing
- Detail Plan and Section drawings
- Coordinate Schematic Design, Design Development, and Construction Documents.
- Record site conditions, to begin or develop design phase
- Draft plans, sections, millwork, details, and elevations for Construction Documents

- Installation and setup of all printing equipment and computer hardware (in-house)

Petrelli and Associates

August 2005 - March 2006

Arlington, TX 76011

I moved to Arlington to pursue architecture full time. Working for Petrelli and Associates gave me experience of working on different projects without supervision. I worked on many types of construction and was put in charge of all construction documents. We worked on projects for UTA, the Arlington Public Library, and PlainsCapital Bank to name a few.

- Draft plans, sections, millwork, details, and elevations for Construction Document
- Prepare presentations using computer rendering and exterior elevations
- Draft plans, sections, millwork, details, and elevations for Construction Documents
- Coordinate Schematic Design, Design Development, and Construction Documents.

Tim Rice McClarty, Architectural Office

August 2004 - August 2005

Abilene, TX 79601

This was my first full-time position as a draftsman. I worked directly under Tim McClarty, participated in all client and subcontractor meetings. I did extensive on site field measurements that were vital to the correct dimensions for the contract documents.

- Extensive field measurements of existing and historical elements to be salvaged
- Creation of all contract documents and printing
- Edit Specification Documents
- Coordinate entire project and consultants for all design and renovation phases
- Extensive preliminary Design Work

EDUCATION

BS in Architectural Graphics and Design

Abilene Christian University - Abilene, TX

Alternative Teaching Certification

Region 14 - Abilene, TX
