

ePortfolio Goal & 3 Column Table

BHAG/Overarching Course Goal: Learners will create an ePortfolio to showcase their journey as document their learning and reflection process.

Learning Goals	Assessment Activities	Learning Activities
Foundational Learners will analyze the elements of being an effective learner within an ever-growing and changing digital job market.	Research ePortfolio designs/platform taking into account quality, accessibility, and design guidelines.	Share out a design plan that details each stage of developing the ePortfolio and participate in feedforward communication with peers.
	Discussion	Reflection & Discussion
Application Apply the design strategy and develop an online ePortfolio that shows the use of choice and ownership in authentic learning.	Select a design platform and develop a digital resume.	Share implementation plan and participate in feedforward communication with peers.
	Use in-person groups and online LMS to collaborate with peers	Reflection & Discussion
Integration Learners will justify their design choice, content specific perspective and development strategy of the ePortfolio.	Plan and implement multimedia strategies for presentations	Utilize the knowledge of creating and maintaining ePortfolios and share challenges and enhancements to the design.
	Discussion	Reflection & Discussion
Human Dimension/Caring Learners will showcase their creativity through branding and attractive content creation. Participate in constructive review and feedback of peer ePortfolio projects.	Engage in group brainstorming sessions	Meet with mentors/colleagues to gain strategic and tactical guidance and collaborate, review and feedforward peer design projects.
	Use online presentation management technologies to create, edit, transport, and share documents Discuss challenges faced with developing an ePortfolio, looking at what did work and what could be more appealing	Reflection (try out-blog, video, graphic, etc.) & Discussion
Learning "How-to-Learn" Learners will compile digital resources that influence others and showcase their professional growth and progression.	Apply a growth mindset and create a plan for moving past the challenges of development and implementation in the future	Showcase and promote the ePortfolio project that displays the elements of choice, ownership, voice and authentic learning → will be used to help facilitate the implementation process with students.
